Hosted by Georgia Institute of Technology

CALL FOR STUDENT POSTERS

Submissions due July 18, 2020

The 6th International Symposium for Academic Makerspaces (ISAM) is now accepting student poster submissions. If you've created something - in class or as a hobby - and want to share it, we want to hear from you. We're looking for cool stuff made by enthusiastic and passionate student makers. Accepted poster presenters will be given space to display hardware. Show your passion for making - submit a poster today!

Submission guidelines:

- Submit a draft of your poster and an extended abstract of up to 2 pages describing your project at isam2022.hemi-makers.org/papers. Accepted posters will be displayed at the conference and abstracts will be included in the online proceedings.
- Poster and abstract should be submitted in PDF format.

Other Details:

- \$500 Cash Prizes will be awarded to the best posters.
- Travel stipends are available for qualifying students. Apply at isam2022.hemi-makers.org/travel.

ISAM joins the people, knowledge and inspiration that help create academic makerspaces to maximize impact on the student learning experience and alumni success.
